Description

This project comes from a renowned Scandinavian project developer. There is one penthouse and eight apartments available. The penthouse has two bedrooms and two bathrooms and a spacious private roof terrace with pool. Adjacent to the living room is a covered terrace. The kitchen and living room are open with lots of light.

The aim of the developer is to create an oasis in the city through architecture and design with soft natural materials and carpentry work in the outdoor area. A clean, fresh urban ambience inside that receives maximum natural light through the floor-to-ceiling windows that lead onto the private balconies, where you can enjoy life almost all year round due to Mallorca's warm climate. There are elegant communal areas such as the garden and pool area. In addition, there is at least one storage room and one garage space available for each apartment.

All apartments have a layout that leads to the terraces, both covered and uncovered. There is underfloor heating and air conditioning in the apartments, indirect lighting, oak carpentry, excellent equipment quality, micro-cement floors, designer kitchens and bathrooms and all top materials from the internationally renowned company Porcelanosa.

Features

pool, roof terrace, underfloor heating and air conditioning throughout the apartments, indirect lighting, oak carpentry, an excellent standard of appliances, porcelain stone like finished floors, designer kitchens and bathrooms and all top materials from the internationally renowned company, Porcelanosa, lift, 1 underground parking space, laundry and storage room
