Description

This project comes from an outstanding Scandinavian project developer. The multi family residence offers 7 unique apartments, of which a few are already sold.

In this building we have several apartments more for sale, starting at around 865.000 € and including ground, first and second floor units with 2-3 bedrooms and sizes ranging between 80-100sqm. As these units sell fast and availability and prices are subject to changes, please contact us for updated info and to organize a viewing on site.

Completion will be at the end of 2023.

Features

underfloor heating and air conditioning, indirect lighting, oak carpentry, an excellent standard of appliances, porcelain stone like finished floors, designer kitchens and bathrooms and all top materials from the internationally renowned company, Porcelanosa, lift, 2 underground parking spaces, storage room, laundry
